Dexian Successfully Delivers Analytic Developers to Improve Business Intelligence

©Dexian, LLC, 2023 | 4284337104

CLIENT:

A global leader in medical technology, services and solutions.

Challenge

The client needed resources to review and extract data from various sources; clean, prepare and manipulate data in the Data Warehouse and use an API Gateway to ingest data for PowerBI.

Solution

Dexian provided skilled analytic developers versed in a range of technologies.

Outcome

Dexian's consultants were integral to the success of the project, saving the client money, and accelerating the client's development efforts in its Global Business Operations and Cardiac Rhythm Heart Failure units.
